TECHNICAL DATA SHEET

For coils

By “Coil coatings system” we indicate one of the most technologically advanced systems for the production of high-quality decorative and protective materials with extremely good performance.

The material is a combination of metallic substrates (Aluminum, Tin plate, Tin-free steel) and an organic coating applied in liquid form (varnishes) or glued films (pvc, pet etc.)

This material is called coil and is a pre-coated layer that can be used in many applications

FOOD CONTAINERS

Series	Type	Description	Performance
REICOIL OUTER PROTECTION	Epoxy	White, Clear, Pastel and transparent colors	High gloss, high flexibility and adhesion
REICOIL INNER PROTECTION	Epoxy	White, Clear	Very good Margarine, potato, rice and acetic acid test resistance. Suitable for a wide range of food products. Good performance on not treated substrate.
REICOIL INNER PROTECTION	Polyester	White, Clear	Very good Margarine, potato, rice and acetic acid test resistance. Suitable for a wide range of food products. Pretreated substrate requested. The products are BPA, BADGE and BFDGE free.

PILFER PROOF CAPS

Series	Type	Description	Performance
REICOIL BASECOAT OUTER PROTECTION	Epoxy	Clear, Gold , Transparent Colors	Sterilization proof, good color stability Suitable for pharmaceuticals
REICOIL BASECOAT OUTER PROTECTION	Polyester	White, Clear, gold ,pastel and transparent colors	Suitable for Vine and spirits caps until 30 x 60
REICOIL TOPCOAT OUTER PROTECTION	Polyester	Clear	Suitable for Vine and spirits caps until 30 x 60

Any and all statements, information and recommendations contained in the present technical sheet are drawn up to the best of the experience and knowledge of Reinol SpA and based on tests which we regard as reliable. Nevertheless this does not imply any responsibility, either implicit or explicit, on the side of Reinol SpA. Buyers shall bear all risks arising from the use of the products, it is therefore understood that the sale of the product is not protected by any guarantee, either implicit or explicit.

TECHNICAL DATA SHEET

FINSTOCK

Series	Type	Description	Performance
REICOIL	Epoxy/Polyurethane	Gold and different colors hydrophobic	Very good UV and corrosion (salt fog) resistance
REICOIL	Hybrid	Clear, Matt, Hygroscopic and Hydrophilic
